Please review the attached <u>minimum equipment requirements</u> list. Keep that list and use it as a "check off" list prior to leaving for the Academy.

Minimum equipment required for this training:

- Ear protection: earplugs and/or muffs (electronic ear muffs recommended).
- Eye protection: Prescription eyeglasses or shooting glasses (good shooting glasses will have "Z87" stamped on the inside of the temple), with shaded lenses for sunny days clear for overcast, or sunglasses.
- Handgun w/good fitting holster. Holster will be strong side only and must cover the trigger guard as well as retain the gun during movement.
- Minimum of two magazines or revolver speed loaders.
- Two magazine or speed loader holders.
- Good quality sturdy belt for the holster and magazine holders.
- 200 rounds of ammunition.
- Dress appropriately for the weather. Shorts and T's are okay for spring and summer. Shirts/blouses will need to be tucked in or fitted so as not to interfere with the holster. Excessively baggy shirts/blouses are not recommended as they may hinder access to the firearm in the holster.
- Comfortable shoes suited for out door activities, i.e. athletic, hiking, etc.
- A cap or hat to protect your head and face from the sun.
- Sunscreen.
- A good attitude, willing to learn and have fun!
- Sack lunch (bottled water provided)
